

TECHNICAL SHEET

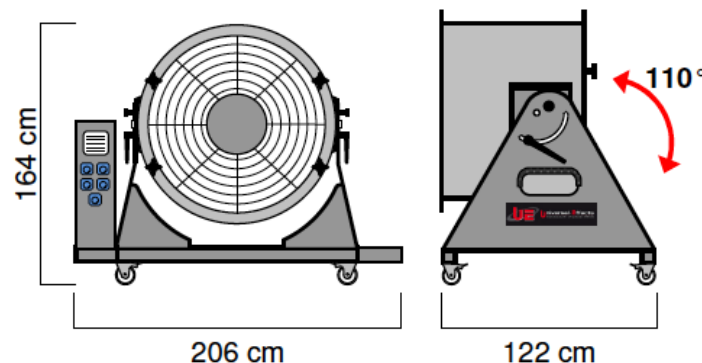

UE ST- Base 1000 MKII DMX

Article code: PFPFBA001901

The UE ST Base, thanks to its large dimensions and power (22,000W) is designed to create huge effects. The base is fitted on 4 fully locking casters. The base can be oriented to 100° from the vertical position. The whole set can be easily moved manually or using a forklift. This machinery is fitted with an electric cabinet to ensure total protection and control of both power and effects. Thanks to the built-in frequency inverter, you will be able to control the ventilation power, from 0 to 100%. When used at full power, the Power Head Wind produces a wind blowing at 140 km/h!

PART LIST

- 1 x UE ST- Base 1000 MKII DMX
- 4 x Locking bolts for heads

SPECIFICATIONS

Dimensions (L x W x H in cm): 206 x 122 x 164

Weight (kg): 300

Rating: 380V – 50 Hz – 22 kW – 58A

Speed control via DMX-512

Complies with norm CE ERP 2015

FEATURES

Supplied with a frequency inverter, a full electrical protection and a head monitoring. Output wind speed: 125 km/h. Output speed using a Power Head Wind: 140 km/h

USABLE HEADS

- UE Head Snow 1000
- UE Head Wind 1000
- UE Projection 1000

OPTIONAL ACCESSORIES

- Extension cord, on request:
- Power cord 5x6² per linear metre
 - Plug Tetra P17-63A
 - Socket Tetra P17-63A

Made from ALUMINIUM and STAINLESS STEEL, the UE ST- Head Wind 1000 is a durable product. Each component was selected keeping in mind its quality and its efficiency.

TECHNICAL SHEET

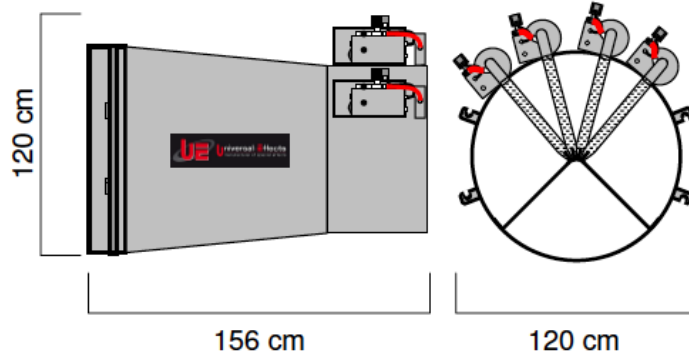

UE Head Snow 1000 MKII

Article code: PFPNE001910

The UE Head Snow is fitted with a quadruple snow production system that creates a very impressive storm effect. This machinery is ideal to cover a large area, from a remote position. Thanks to the gigantic size of this effect, your audience will shiver! The head is supplied with a 200l tank equipped with a hydraulic system. Adjusting the size of flakes is possible. You can then select your effect, ranging from a simple blizzard to the apocalyp'snow...

PART LIST

- 1 x UE Head Snow 1000
- 1 x Tank 200 l
- 1 x Tank/Head feeding pipe

SPECIFICATIONS

Dimensions (L x W x H in cm): 156 x 120 x 120
Weight (kg): 45.3

Rating: 230V – 50Hz – 1400W – 4 x 6.1A

FEATURES

Fitted with 4 compressors connected to the base. Supplied with a 200l tank connected to a distribution splitter located on the snow head, via a feeding pipe and a quick coupling. This one is fitted on the Base 1000, on a reserved location.

Dimensions of the tank (L x W x H in cm): 23 x 72 x 85

USABLE BASE

- UE ST Base 1000 MKII 1000

CONSUMPTION

- With a UE ST Base 1000, discharging over more than 30 m long and 15 m large.
- Consumption of snow liquid: 60 to 120 l/h.

CONSUMABLES

- ST- Snow Fluid RT, ready-to-use.
- ST- Snow Fluid CC 90% diluted with water.
